## Lines accessories

The GMM Business Unit of Schio (Vicenza) relies on a twenty years' experience in designing and manufacturing lines for ceramics and stone industry. Thanks to the constant development of the entire product range GMM/Schio is now a key player in supply lines for cutting, calibrating and polishing marble, granite, natural stone, composite materials and concrete products. Manufacturing advanced, reliable and affordable technology, offering simple but effective solutions, as we call "accessible quality" which is our philosophy, where this allows for maximum quality and minimum costs for the client.

### PROCESSING PLANTS FOR MARBLE:

- Production of polished slabs from the Gang saw.
- Production of tiles starting from the Block cutter.

### PROCESSING PLANTS FOR GRANITE:

- Production of polished slabs from the Multi wire machine or the Gang saw.
- Production of tiles starting from the Block cutter.

All the lines can be automated in different ways, with the adoption of robotized drives and the insertion of complementary machines such as filling machines, trimming machines, chamfering machines, drying machines, etc.

## Complementi di linee

*L'Unità Produttiva GMM di Schio (Vicenza) si avvale di una ultraventennale esperienza nel campo della progettazione e produzione di linee nel settore ceramico e lapideo. Grazie al rinnovamento e all'ampliamento dell'intera gamma produttiva, GMM/Schio oggi rappresenta un importante punto di riferimento nella fornitura di linee per il taglio, la calibratura e la lucidatura del marmo, del granito, della pietra naturale, dei materiali compositi e dei manufatti in cemento. GMM costruisce linee innovative, affidabili, semplici nell'utilizzo ma nel contempo molto performanti, perseguendo la filosofia vincente della "qualità accessibile" che consente il massimo della qualità al costo minimo per il cliente.*

### LINEE SPECIFICHE PER MARMO:

- Produzione di lastre lucide partendo dal telaio.
- Produzione di piastrelle partendo dalla tagliablocchi.

### LINEE SPECIFICHE PER GRANITO:

- Produzione di lastre lucide partendo da multifilo o da telaio.
- Produzione di piastrelle partendo dalla tagliablocchi.

*Tutte le linee posso essere variamente automatizzate, con l'adozione di movimentazioni robotizzate e l'inserimento di macchine complementari come, stuccatrici, squadratrici, bisellatrici, asciugatrici ed altre.*

## Complementos de líneas

*La Unidad Productiva GMM de Schio (Vicenza) aprovecha más de 20 años de experiencia en el campo del diseño y producción de líneas en el sector cerámico y piedra. Gracias a la renovación y ampliación del rango de producción, GMM/Schio hoy representa un importante punto de referencia en el suministro de líneas para el corte, el calibrado y pulido del mármol, del granito, de las piedras naturales, de materiales compuestos y de productos de concreto. GMM construye líneas innovadoras, confiables y simples en el uso, pero al mismo tiempo muy productivas persiguiendo la filosofía ganadora de la "calidad accesible" que permite lo máximo de la calidad al costo mínimo para el cliente.*

### LINEAS ESPECÍFICAS PARA MÁRMOL:

- Producción de láminas brilladas a partir de laminadora.
- Producción de losetas a partir de cortabloques.

### LINEAS ESPECÍFICAS PARA GRANITO:

- Producción de láminas brilladas a partir de multihilos o de laminadora.
- Producción de losetas a partir de la cortabloques.

*Todas las líneas pueden ser diversamente automatizadas, con la adopción de movimientos robóticos y la inserción de máquinas complementarias como, retapadoras, cuadreadoras, biseladoras, secadoras y otras.*

### ATS 350

Semi-automatic single or double cross cutting machine for marble and granite

*Intestatrice semi-automatica singola o doppia per marmo e granito*

### ATS 400 SPECIAL

Automatic single or double cross cutting machine for marble and granite

*Intestatrice singola o doppio disco automatica a nastro per marmo e granito*

### ATP 400

Pendulum single disc cross cutting machine for marble and granite

*Intestatrice singola a pendolo per marmo e granito*

### ATM 1500-2500-3500

Multiple cross-cutting machine for marble and granite

*Intestatrice multipla per marmo e granito*

### CBM/CBMG

Chamfering machine

*Calibratrice bisellatrice*

### SAV

Automatic unloader for block-cutter

*Scaricatore automatico per tagliablocchi*
